12:00pm/1:00pm

I-94 Modernization Project: Second Avenue Bridge Move – Concept to Construction

Matt Longfield (HDR), Eric Polvi (HNTB)

From ITE Michigan Spring 2023

The presentation provided an overview of the signature network tied arch Second Avenue Bridge over I-94 and will cover the design and innovative construction methods that included building the bridge off-site and moving it into place using Self-Propelled Modular Transporters (SPMTs).
